

OVERVIEW of LIFTING COLUMNS for MEDICAL APPLICATIONS

TiMOTION Provides Flexibility,
Customized Products, and Tailor-Made Services

SAFE, SMOOTH, and SYNCHRONOUS MOVEMENT

When it comes to medical applications, we provide more than just an elegant design; safety and quality are our highest priorities.

At TiMOTION, we focus on providing high quality, electric height-adjustable solutions. All of the lifting columns we design can work quietly and smoothly with synchronous movement.

HIGHLIGHTS

- Medical approved by IEC 60601-1: 2005
- Elegant physical designs: cylindrical or square
- Waterproof up to IPX6
- Compatible with all TiMOTION Care Motion control boxes, handsets and accessories

Technical data of TL series

Model	TL3	TL8
Max. load in push (N)	4,000	2,000
Max. speed at no load (mm/s)	39.0	24.4
Max. speed at full load (mm/s)	24.0	18.0
Min. installation dimension (mm)	Stroke/2+220mm	350
Stroke (mm)	100~700	400
Features	3 stage square design	3 stage cylindrical design
